

# Sonya™ soothing gel moisturizer

## A hydra-infused moisture carrier

- Collagen to improve the appearance of skin
- Over 10 natural plant extracts and oils
- A hydra-infused moisture carrier

You've never felt a lotion like this before. **Soothing gel moisturizer** looks like a lotion, but this gel based formula melts into your skin. Filled with botanicals and lush active ingredients, this gel-lotion breaks down and is completely absorbed—leaving a moist and dewy complexion. **Soothing gel moisturizer** dissipates into a hydra-infused carrier that doesn't leave a residue or texture and helps your skin look and feel plump from the abundance of natural ingredients.

Plant extracts and oils including apple fruit extract, pomegranate fruit extract, fig fruit extract, mulberry fruit extract, ginkgo biloba extract, jojoba esters and olive oil help skin feel hydrated and supple. Beta-glucan extracted from mushrooms has been added to this unique formula to soothe the skin and even skin tone.

We also added anti-aging ingredients like linoleic acid and hydrolyzed collagen, scientifically advanced to go into the skin where it needs it most, and phytic acid, a powerful support for combination skin, to improve the look of your complexion, making this your new favorite all-around daily moisturizer.

To finish the formula, we infused it with orange peel oil, mandarin orange peel oil, roman chamomile flower oil, geranium flower oil and bergamot fruit oil to leave skin feeling refreshed.
